Dear Greg,

Again, I don't Wish to accuse You of criminality, but I do know from Affidavit evidence of Michael von Dehn that You told Michael Tiffany's 'holograph Will' was binding and that Michael needed to Give You everything regarding the Estate, including **My father's ashes!!!**

You **unlawfully** deceived My brother into believing Tiffany was the 'duly appointed' executor, **ordered** My brother to Give You My father's ashes.

So You believe the Will was Good enough to steal My father's ashes, but not Good enough to address the \$3 million in claims waiting to proceed against the Estate as a result of Your client, who has been gifting My father?

I look forward to hearing from You **today**. If I don't, I Will be Giving Notice of Appearance to let the Toronto Court know that I Will address the Claims against My father and help them find the guilty party. My father is innocent, Your client is responsible for the \$3 million in damages.

You are liable to Me for \$3 million for attempting to hide these claims from the debtors, destroying My father's ashes without having any right to do so, and for simultaneously attempting to steal assets from the Estate by suggesting remainder funds from an unlawful power of sale should go to Your client without any mention of the creditors?

I look forward to hearing from You,
