Dear Valerie Bourbonniere,

I've been in contact with Virtual Crown Ottawa since the very first day that Kimberly MacDonald of the City of Ottawa sent a fraudulent information and charge screening form saying that some artificial person going by the name Sean 'VON DEHN' has been charged with three counts of aggravated harassment.

I am feeling very harassed by the Ottawa Police Service and the supervisors of the Ontario Superior Courts in Ottawa, Bracebridge and Toronto providing Me with copies of all the fraudulent Court filings not processed onto the Registry to avoid judicial oversight, yet none of these clowns have been arrested and Gillian Kreling and her cabal of criminals in the Ottawa Courthouse continue to interfere with My filings.

Should I just send these emails to the International Criminal Court of Justice to add as evidence related to the Canadian government's unlawful bioweapon mandates (there is no vaccine, all mRNA medical products are lethal to humans and have not been fully tested - experimenting on a general population without informed consent is a violation of Nuremberg Principles governing informed consent, meaning that no One in Canada has provided consent to be vaccinated because the Canadian government lied about the efficacy and safety of the product).

It appears as though every One working for Canada's Court is complicit in Court fraud and obstructing access to Justice for Canada's People. So far, it appears that the Deputy Registrar General intends to do nothing to put the fraud of criminals like Valerie Bourbonniere to a stop. It legitimately appears as though Canada's Courts are just a cloak for fraud.

Valerie, can You explain why Virtual Crown Ottawa Will not respond to queries related to the charges You Wish to proceed against Me with? Can You tell Me why I can't find these charges in the Court Case look up tool (the public Record/Registry)?

You have until 5:00 today to respond to this email, cease and desist Your fraud, or to be civilly and criminally liable to Me for no less than \$100,000,000.00 for the last six years of Registry fraud and attempting to proceed against Sean Stephen von Dehn in violation of his Trust on file with MOJAG with fraudulent, artificial characters (Sean VON DEHN, Sean VONDEHN) et cetera.

If You have any charges You Wish to bring against Me (the author of this email and the only 'Sean von Dehn' that has any Will to speak), You Will bring the charges in My proper, legal and lawful name, 'Sean von Dehn'. If You can only proceed against Registered Titles, the Title is 'King' and the Man holding that position of office is Sean who represents the House of his Father in Heaven, von Dehn.

If You do not reply before 5:00 Post Midi TODAY, You Will be presumed guilty on all counts with 'nothing to say' in Your defense, tacitly conceding You are guilty of all charges.

You are hereby served on a Common Law Court of Record. This email Will be published on www.vondehnvisuals.com.

Blessings,

King Sean, House von Dehn,

Attention Valerie Bourbonnniere,

If I do not hear from You today, a complaint Will be filed against Your bond with the Law Society of Ontario for Registry fraud and colluding with criminal clerks of the Court, the Ottawa Police Service and Multifaith Housing Initiative.

The Law Society of Ontario requires Me to Give You Notice and opportunity to explain Your Self before I file the complaint so that You have opportunity. I'm as King of You plainly why virtualcrownottawa@ontario.ca is ghosting Me related to these charges and why they are not Showing up on the Registry. That seems like Registry fraud to Me, perpetrated by a prosecutor for Crown and serious, criminal malfeasance causing Me serious, aggravated harm.

You are hereby Given Notice of Your criminal malfeasance and fraud causing Me serious harm and undue duress.

Hand of Stephen,
