Good morning,

Vinicius the Odious Oliveira proceeded against Me in fraud by using a fake name on the Court Registry to avert oversight from MOJAG. May I request the full Court of Record for 23-353404.

I'm also advising You that some One in Ottawa is responsible for attempting to perpetrate the same fraud in 24-122310. Can You explain to Me why clerks of the Court are adding a hyphen to the last name to create an entirely new, fictional entity that does not exist in objective reality? Why are You engaged in Registry and identity fraud?

I look forward to hearing from You, and for the criminals responsible for the fraudulent proceeding and all of My wasted time to be held accountable.

If Vinicius Oliveira took it upon himself to interfere in a Civil Matter before the Superior Court of Justice (22-89835) because he was upset that I had recorded Justice Marc E. Smith's deliberate collusion with opposing counsel (who is trying to convince Me that My sister was awarded a CAET for the Estate of Joachim Heinrich von Dehn while Jove Ponniah and the Toronto Courthouse continue to proceed against him if fraud), does that mean the Recording is now worth at least \$6280? Or is it arguably worth much more than that if it is evidence of a Superior Court Judge colluding with criminals to use the Courts as a cloak for money laundering and insurance fraud?

Is that Your plan? Threaten People who record the proceedings so that Judges and justices can violate their Oath and the constitutional rights of Canada's People with impunity? I recorded the proceedings to hold criminal clerks posing as judicial authorities accountable for their collusion with criminal liars posing as lawyers.

I'd like to settle the Order for 22-89835 whenever criminals war King against Canada's People at the Ottawa Courthouse Will stop obstructing My access to justice and colluding with criminals.

Do You always engage in identity and registry fraud when proceeding against Canada's People, or am I receiving special treatment? Is any One war King for this Court Honourable enough to return an email? Every other office ghosts Me when I report criminals war King for Your organization. I can only presume You Wish for as many criminals as possible to be war King for the Courts so You can all cover over each

other's crimes. A bunch of city of Ottawa grifters posing as professional clerks of the Court. Who is responsible for this fraud?

Thank You, I look forward to that disclosure,
