RE - Accusations regarding behaviour and buzz code follow up

King Sean, House von Dehn <gnosticwisdom37@gmail.com>

Mon, Jan 12, 2026 at 2:52 PM

To: Sarah Lorenz <housing.manager@multifaithhousing.ca>

Cc: Maintenance <maintenance@multifaithhousing.ca>

Dear Sarah,

I do not require, nor was I as King for Your consent to publish these emails. As stated previously, so long as You are receiving public money, You are subject to public scrutiny and full transparency. If You Will not disclose the names of individuals who file complaints with You, they are not legally or lawfully filed complaints and are meaningless. If You as the building manager are going to receive complaints based exclusively on hearsay and accept them as fact, then YOU are the one making unsubstantiated allegations against Me in violation of My rights. Do You allow every One to file anonymous complaints so You can conspire to comprise a file against an individual without their knowledge, consent, or opportunity to defend their honour?

Your accusations are patently false and this time I have not one, but two impartial witnesses to the correspondence. The maintenance People were cheerful, courteous and laughed when I told them You had been lying to tenants about Notice of the request to change HVAC filters. There were numerous tenants inconvenienced by the unlawful Notice of entry.

This email Will be published as Will all correspondence with You and the criminals working for Your office. If You were not engaged in fraud, the belief is that You would provide receipts to show exactly how much You receive in rent just to vindicate Yourself. The fact that the only portion of rent You do not Wish to receive rent for is the portion which You were unlawfully inflating by claiming to pay utility benefits is a convenient coincidence and highly suspect.

Criminals do not fear transparency and a public Record of communications, but passive aggressive, narcissistic slumlords absolutely fear transparency and accountability.

Your maintenance team TRIED to assign a buzz code to My intercom, but was unsuccessful. It appears he has never done this before. Perhaps You should be as King of whomever it was that assigned the rest of the numbers to do the job instead of some One new? Might not be a bad idea to have some One on site who is competent enough to program the intercom. Provide Me with a copy of the instruction manual and I can probably help Your tech team figure it out.

You are as King of Me to address You by Your proper legal name and Title. What is that, exactly? Sarah Lorenz, property manager - is that correct?

If You Wish for Your name and title to be respected, then why don't You respect My name and Title? Do You not believe We should all be entitled to be addressed as We Wish? Yet You have not once addressed Me by My legal and lawful title, despite signing every email to You so that You Will know who is Writing You.

If You Wish for respect for Your God Given name and title, then You must respect the same of others.

You can make accusations against My character based on hearsay by an anonymous complainant, but I am not supposed to call You out for stealing utilities from tenants when We know it to be True? You have failed to let Me know that utilities were cut off which is unlawful and constitutes a criminal breach of Trust. These are not 'accusations' these are facts on Record. My belief is that if You were not still stealing from Me, You would treat Me with a lot more kindness, courtesy and respect. But instead, You take criticisms of the negligence of Your staff and organization personally, then attack the messenger. Very grown up of You.

I believe Your entire accusation regarding behaviour was a lie and no complaint was made which is why no One Wishes to stand behind it with a name.

Nice try, Sarah 'the Liar' Lorenz. It is not defamation if it is True. I also Gave You Notice that if You do not provide a name, I would call You a liar because I believe You made the story up! And because You don't have any proof or any One Willing to testify to Your alleged fact, the common Law presumes You were lying.

Passive aggressive, narcissistic behaviour and not very professional. This email Will be published. If You don't like anything I'm writing about You or Your organization, sue Me.

Blessings,

King Sean, House von Dehn,
Hand of Stephen,
The Kingdom of Heaven Found a Sean
