Bcc: Ayan Abdillahi <ayan_abdillahi@hotmail.com>

Good afternoon,

I just had another VERY frustrating conversation with a lawyer from the legal aid clinic in Ottawa (K2J6J6).

This is the second time an Applicant before the LTB has requested a lawyer to represent her in a hearing because she was unlawfully deprived of her choice of counsel by the Board's adjudicator, Trish Carson (and based exclusively on information provided by the respondent to the Applicant's application made in violation of the Rules and without service on the tenant or her counsel so that they would have fair opportunity to respond to the landlord counsel's ambush litigation tactics in violation of Principles integral to due process in a Common Law Jurisdiction).

Once again when Ayan was requesting assistance today with a Matter that has now been pushed back for a third time (without any meaningful discussion whatsoever), the Legal Aid clinic said they cannot help because they have no staff because it is March break and Will have to forward her information to the 'director'. I requested the director's name and phone number, she advised that Clariss Titus is the one asking the agent to forward the request to the legal aid clinic's director. They anticipate that she Will receive a call back IN TWO WEEKS?!

I requested a form showing they have refused to provide services and was advised they don't provide any such form and I Will have to contact the director or wait for the director to call Me. This is a JOKE?

We also spoke to the Legal Aid Society's general line and they assured Me this is NOT okay and that I should report the legal aid clinic to this email and am now following up on that advice. They also advised that if the Legal Aid clinic cannot provide assistance, they are REQUIRED to provide a letter of refusal to indicate why.

Thank You,
