Dear Registrar,

Take Judicial Notice that the defendants in this matter, Merovitz Potechin LLP and its representatives, have been duly served with a Notice of Default and Declaration of Liability. As per the principle of *Nihil Dicit*, their silence confirms the facts, and their liability is now a settled matter (*Res Judicata*).

This Court has a non-waivable, inherent jurisdiction to supervise all trusts and to protect the welfare of beneficiaries. File 22-89835 is a Trust Claim, on the public record with the Ministry of the Attorney General (MOJAG) as of January 19, 2017—years prior to the Settlor's death. Subject-matter jurisdiction is absolute and cannot be challenged or ignored by this Court.

To further ignore this matter is to become complicit in the willful trespass upon the Trust and the ongoing fraud being perpetuated by the defaulting parties.

Therefore, I am not requesting a motion. I am directing you to **schedule a Motion on an urgent basis** for the following purpose:

**To compel the performance of the Trust obligations and to enforce the default judgment against the defendants for their willful trespass and fraud.**

This is a short motion, and I respectfully require **no less than 30 minutes** of court time to present the evidence and the arguments.

Please provide me with the first available three (3) dates and times for this motion to be heard before a Judge of competent jurisdiction.

**Given her prior notification of the fraud and collusion outlined in the file, I respectfully request that this motion be scheduled before Justice Sally A. Gomery.**

For the Court's verification, a copy of the accepted Trust Instrument on record with MOJAG can be requested from Mr. Sean Kearney, Legal Director.

Failure to schedule this motion will be documented as a willful dereliction of the Court's inherent duty and will further evidence the systemic corruption being used as a cloak for this fraud.

I look forward to receiving the available dates forthwith.

Sincerely,

King Sean, House von Dehn,
