Item Description The phone was returned but voicemail is locked with a password. I have complained to the investigating officer but they sent police to intimidate Me and threaten Me with 'criminal assault' charges if I visit My neighbour to ask for the password. This is a partisan investigation with a pre-determined outcome and represents a pattern of police harassment and brutality. Police have arrested Me under three fraudulent names over the last six years, all charges 'withdrawn at request of Crown' before I can report the criminals posing as cops and I Wish to see these clowns charged, especially officer 'Jeffries' who claims to be the investigator of this file 'ghosting' My email testimony and reports sent to 'filing.scanning@ottawapolice.ca'.	
Who owns this item? King Sean House von Dehn (1973-06-05)	

incident_supplementaryInfo

Why are you providing this additional information? Officer Jeffries is compromised and failing to respond to My reports, I believe she is complicit and deliberately attempting to escalate with passive aggressive behaviour, knowing I need the voicemail password but threatening Me with 'criminal assault' charges if I go to My neighbour to ask. A criminal cunt is what she is!!!
What additional information would you like to add to your original report? I Wish to see Officer Jeffries and whatever other clown she brought to My house yesterday to intimidate Me while 'pleading willfull blindness' of My request for assistance to acquire the voicemail password for the phone to de-escalate the conflict. I have no interest in communicating with Goeorge or Sonia, I just Wish for My phone back and to see Sonia charged with criminal harassment assault - and I'd like REAL investigation conducted where officers actually ask question of neighbour to get impartial witness statements of the incident.
